14:00 V6 Technical breakouts – attendee choice

•CATIA V5
- File Based standalone / SMARTEAM

Migrate to..

•ENOVIA V6
- DCI for CATIA V5
- Vaulting
- Viewing/markup

...to i-PLM V6

•iPLM V6
- BOM / Eng. Change
- Project Mgmt
- Collaboration
- CATIA V5 & V6 co-existence

.... to full V6

This workshop will provide answers to many of the questions raised by the Dassault Systemes V6 strategy:

- V6 is too far away to worry about, so why prepare for it ?
- I want to managed my CATIA V5 files, but not with SMARTEAM – what can ENOVIA V6 do for this?
- I am interested in ENOVIA V6 as a platform to build a PLM system for BOM, Engineering Change, Supplier & Project management – how do I start?
- I am just confused about the whole V6 thing. What does it mean to my CATIA V5 data now and in the future?

We will be discussing

- Alternative approaches for CATIA V5 users for moving to the V6 platform, and ultimately to CATIA V6
- How to take advantage of **low-cost special deals** for ENOVIA V6 which significantly cut the expense of a V6 adoption.

In addition all attendees will be provided with a training token for free attendance to one of a number of follow-on 2-day CATIA V5 to CATIA V6 migration courses.

I wish to attend on the 5th July (Northampton)

I wish to attend on the 6th July (Bristol)

I wish to attend on the 14th July (Coventry)

I wish to attend another date

I would like a workshop at my company
